Kris

ERB6 did this one way back in 2014 when I believe the first iteration of this 18 came in.

Thanks, Stacey. I looked at the BEAN sheet.

We have been working on the ESA assessment for this action. Does RD also want a general FIFRA eco risk assessment?

Kris

Hi Mark & Christina,

Please review the attached BEAN to evaluate the clothianidin citrus S18 including an ESA analysis.

Thanks,

Stacey

Kristina and Mark,

Attached is the FL request for the clothianidin 18, let me know if you need anything else. Thanks.

Thanks, Eric.

Could you please send me the section 18 submission request from Florida? I want to make sure I have the right application information, including rates.

Thanks,
Kris

Mark and Kristina,

I got an update from Florida today, they expect to have answers for us early next week. Thanks.

Eric & Nancy

Sorry, I had to run out this afternoon and wanted to get you this. Kris added a few extra thoughts to the questions for FL on the 18 in the attached document. In addition to this, I would suggest a question about the nature of the soils on which the trees that will be treated are known

Specifically, EFED models Florida Citrus specifically for our groundwater modeling and our conceptual model for that use is of Citrus on the Central Ridge which is basically all sand and prone to leaching much more so than runoff. The extent to which the Florida folks can confirm the use relative to the Central Ridge would be helpful for us to know how important runoff for potential exposure to listed species in this area.

I am out next week but will be back on July 5th and we can touch base then (I believe Kris is out all of the week of the 5th and will be back the following week)

I'm back the week of the 27th and also out the week after. I have a general update meeting with FL today and I'm going to let them know we are going to have a follow up mtg on the ESA piece with you all (I assume you would want subject matter experts there so I want them to have time to figure out who they need on their side). As far as the 27th being too late I guess that partly depends on what EFED ends up needing and how hard that is for FL to get. If it needs to happen the week of the 20th, I will coordinate with Dan Rosenblatt to be there in my stead.

I would think we would need a little time and once we do talk with them we would want you there. When do you get back? The 27th.

I would want to hear from Kris but I think we may need more time than the run up to week of 20th. Would the week of the 27th be too late?

Mark

Kristina and Mark,

I wanted to get a sense of when you want to have the follow up mtg with FL? I'll just note I'm out the week of June 20th, so trying to plan ahead a bit.

Thanks.
